"The Federal Safe Drinking Water Act provides that no pipe, solder, or flux containing lead can be used in the installation or repair of any plumbing providing water for human consumption, and the approving of this application (or the issuance of this permit) is not to be construed as any approval by the Health Department of the use of such prohibited materials." I hereby certify that the information shown herein is correct and true; and all plumbing will be in accordance with all applicable laws and codes.

(If using onsite sewage disposal stub-out must be at ground level or above.)
