The parcels north of Bienville will include a restroom and 40-50 parking spaces while the acreage south of Bienville will see construction of a new boardwalk, decorative fencing, and appropriate signage. Should prove to be another popular public access facility here on the Island!

Public Beach Parking Update As we edge ever closer to spring, traffic at our public beaches is expected to dramatically increase. Beachgoers are reminded to use the ParkMobile app to pay for parking fees (\$5 day after Labor Day-March 31 & \$10 April 1-Labor Day) which includes daily access to all three town-owned beaches including East End, Middle, and West End (and soon the new Bienville Beach). Council Proposes Metal Detecting Ordinance Dauphin Island has a rich history and protecting specific sites and the potential artifacts within are important responsibilities. Although areas in and around historic Fort Gaines and Cadillac Square have long prohibited metal detecting through placement of appropriate signage, an ordinance is now being proposed that will provide an enhanced level of support and enforcement authority by the town. A public hearing is set for Ordinance 109 - An Ordinance Regulating Metal Detecting and Digging In Certain Historical Areas Within the Town of Dauphin Island on March 3 at 430pm at town hall.

Billy Goat Hole Closed For Repairs The Marine Resources Division of the Alabama Department of Natural Resources recently announced the closing of Billy Goat Hole boat ramps as renovation work gets underway. Recognized as the most utilized boat ramp facility in coastal Alabama, the goal is to modernize the facility and extend the ramps and finger piers further north to improve safety during the launching process by avoiding traffic along Bienville Boulevard. This is a continuation of the improvements that began in 2023 which included enhanced parking designs and traffic flow. Upgrades are also planned for the concession/restroom complex such as a new elevator and ADA compliant ramps. The town greatly appreciates the partnership with DCNR to bring these much needed improvements to Billy Goat Hole. Our heartfelt thanks to Governor Kay Ivey and Commissioner Chris Blankenship for their continued support of this and numerous other projects in and around the Dauphin Island community! Note: Construction is expected to take up to 3-4 months to complete.

Stormwater Master Plan Study Underway A comprehensive study is now underway to develop a master plan to better manage stormwater runoff/drainage for the island's east end (approx. East End to Salt Creek). In fact, some of you may have noticed distinct markings on area streets and increased drone activity just in the past few weeks as engineers gather data for the development of GIS maps, geotechnical information, and more. Over the coming 12-18 months, you may also notice increased activity of survey teams in certain neighborhoods as they work to identify short and long-term measures to address problem areas.

Congrats PVT Grace Eyer mann! You may recall an article in the February Town Crier encouraging residents to purchase and illuminate green lights at their homes in support of island resident Grace Eyer mann (and other members of Delta Company 3-39 Infantry) as she participated in a 4-day endurance test commonly known as The Forge. All proceeds from the sale of green bulbs (\$485) were donated to our local DI Veterans Association. The men and women of 3-39 IN are now US Army Soldiers and have officially earned their "Rite of Passage"! Was it difficult? Well here's what a few of them had to say; "It was COLD", "It was the best experience in the world, that I NEVER want to do again", and "Thank God its over". Grace's parents attended the graduation ceremony and shared with them the "The Forge - Light the Island Green" flyer, and it brought tears for many of them or as they would say "I'm not crying, someone's cutting onions". They were truly touched by the kindness and thoughtfulness of a little island that shined green in their honor. On behalf of the Town of Dauphin Island, we appreciate the support of our fellow islanders during The Forge and extend our heartfelt congratulations to Grace Eyer mann for achieving this impressive milestone!

Dauphin Island Foundation The Dauphin Island Foundation raises initial funds and supports essential initiatives like the Dauphin Island Medical Clinic, Dolly Parton Imagination Library for early literacy, Two Pines: Maritime Forest Project—Pollinator Garden and Blue Bird Nest Boxes at Water Tower Park, Dauphin Island Community Center, island bike path, and the Welcome Center at Little Red School House. To join the Dolly Parton Imagination Library register at <https://imaginationlibrary.com>. Also, the Little Red School House Library is full of books for all ages—take a look and visit with the docents. Check out the pollinator garden at Water Tower Park; it will soon have its spring cleaning and plantings. The bluebirds are moving into the Water Tower Park nest boxes to prepare for their spring clutches! The foundation's mission is to facilitate communication and collaboration between island entities such as the Town of Dauphin Island Government, Chamber of Commerce, Water and Sewer Authority, and Property Owners Association. With those connections, the foundation fosters partnerships that work together to enhance island life through thoughtful projects centered on our rich natural, community, and historic assets. This community-based non-profit has always been a grassroots effort supported by local volunteers and resources. Look for more about these projects here in the Town Crier! Please share your ideas for community projects, get involved, or donate, and please contact us at (251) 861-3800.
