**Cadillac Square Restrooms** Construction of the new public restrooms at Cadillac Square is progressing quite nicely with completion expected by Thanksgiving. The previous structure was in a state of disrepair and the Town Council opted to build a new facility using general funds. The Public Works Dept. recently installed new picnic tables and trash receptacles in Cadillac Square as well.

**Christmas on the Island** The holidays are fast approaching and Christmas on Dauphin Island is always a special time of year. The 35th Annual Miss DI Christmas Pageant will take center stage at the Community Center on December 6 at 7pm with applications due in by November 22. This year the popular event will see the addition of a Teeny Miss DI category for ages 2-4 and a Spirit of DI award that's open to all participants. On Saturday, December 7 join Santa Claus and your friends and neighbors for the DI Christmas Parade that gets underway at 11am at Cadillac Square. You'll also want to stop by Water Tower Plaza on December 7 at 530pm for the Lights of Dauphin Island Christmas Tree Lighting ceremony. Always a colorful and joyous spectacle to experience! The DI Chamber of Commerce is hosting The Lights of DI Dash (fun run/walk) on December 14 at 10:30-11:30 AM at Water Tower Plaza. This is a great way to get together and show your Christmas spirit by dressing up in Christmassy attire such as an Elf or Reindeer or come in a group with matching shirts. Don't forget to have your picture taken with Santa and Mrs. Claus after the run! On December 15 from 1-3PM, join in on the fun at the 2<sup>nd</sup> annual Christmas Tree Ornament Scavenger Hunt! Remember at each event the DI Chamber of Commerce will be taking donations for Feed the Need. Some items we are hoping to collect are large cans of hearty type soups (beef/vegetable, chicken vegetable), instant potatoes, canned vegetables (spinach, greens, peas), bags of dried beans (black eye peas, lima), canned fruit, canned yams, boxes of stove top dressings, canned ham, shelf-stable milk, cranberry sauce, any type of items to help with making a holiday meal. Visit the town website for additional info on all of these holiday family events.

**Giving Thanks** Thanksgiving is a timely reminder to pause and give thanks on this special day for the many blessings in our lives. Loving families, good friends, and quality of life are just a few of the many things that make Dauphin Island home. Together, we have endured challenges and times of grief, celebrated accomplishments, and planned for a wonderful and rewarding future. As we celebrate Thanksgiving each of us should take time to recognize and reflect on all that is good with the world around us and be truly grateful to live in such an amazing place. Traditions make our Thanksgiving memories unique. Make sure you enjoy them with the ones you love. Have a healthy and happy Thanksgiving!

**Update on the West End** In 2019, The Town of Dauphin Island acquired the uninhabited, formerly privately owned west end of the island. With the area now under public ownership, we want to ensure that it is kept safe and hospitable for shorebirds and other wildlife that use it as a vital habitat. While all of Dauphin Island is a designated bird sanctuary, the West End, with its lack of development and open beaches, is a critical nesting habitat for these growing bird families. If you are venturing to the West End for a walk or by boat, please remember dogs are not allowed in the area, watch your step when walking and leave only footprints. As part of the implementation of the Dauphin Island West End Bird Conservation Management Plan, the Town will be launching a new beach ambassador program and is now accepting applications. If you are interested in getting involved, please reach out to [wsandagger@townofdauphinisland.org](mailto:wsandagger@townofdauphinisland.org).

**Corps Updates Dauphin Island Causeway:** The U.S. Army Corps of Engineers (USACE) Mobile District has partnered with Mobile County to provide material for the Dauphin Island Causeway as part of the Mobile Harbor Deepening and Widening (Phase 6) project. The USACE contractor will place material behind the breakwaters constructed by Mobile County’s contractor. Approximately 800,000 cubic yards of dredged material will be placed to create approximately 80 acres of marsh habitat and further protect the Causeway. The USACE construction contract was awarded in May 2024. Construction for the Dauphin Island Causeway part of the project is anticipated to start in November or December 2024. **Little Dauphin Island 2024 Breach Repair:** The U.S. Army Corps of Engineers (USACE) Mobile District has secured funding to repair the June 2024 breach at Pass Drury (across from Billy Goat Hole). A contract was awarded for construction in September with construction anticipated to begin late October or early November. Construction is estimated to take approximately 10-15 days. **Sand Island Beneficial Use NW Extension Placement:** The U.S. Army Corps of Engineers (USACE) Mobile District will be beneficially placing sand within the Sand Island beneficial Use NW extension. Sand will be placed along the ebb-tidal delta shoal system southeast of Pelican Island as part of the Mobile Harbor Deepening and Widening (Project 2a) project. Approximately 2.6 million cubic yards of material will be placed to a maximum elevation of +4 feet. A contract was awarded in August. Construction is anticipated to begin in December 2024. Construction is estimated to take approximately 3-4 months. **Little Dauphin Island Restoration:** The U.S. Army Corps of Engineers (USACE) Mobile District, along with project partners, has developed restoration alternatives of Little Dauphin Island including a permanent breach at Pass Drury. Island restoration alternatives are in final coordination prior to starting final design. Initial design of the permanent breach has started and is being coordinated with restoration activities.

**Town Holds West End Restoration Meeting** The town recently held an informational meeting to update island citizens and property owners on the status of the West End restoration effort. Multiple presenters were on hand to identify and describe the various complexities associated with the much-needed project including; available funding, project design, permitting process, establishment of a permanent mean high tide line (private vs. public land), easements, and a host of other issues. Additional public hearings will be scheduled in the near future by both the town and state of Alabama as part of the process to establish a permanent MHTL.
